

All new patients must have a consultation prior to treatment!

The only exception to this are treatment such as: Injectables (Neurotoxin & Filler), Facials, Dermaplanning, Other Aesthetic services

New patients must pay deposit:

\$50 deposit is required to make a Consultation Appointment and you must cancel within 24 hours of your scheduled appointment.

If treatment is less than \$500:

\$50 deposit is required and you must cancel within 24 Hours of your scheduled appointment.

If treatment is over \$500:

\$250 deposit is required and you must cancel within 48 hours of your scheduled appointment.

Deposits are refundable if the appointment is cancelled on time OR if the patient comes in but decided not to move forward with their treatment.

We ask for your understanding of these policies as each of our providers allots enough time for each appointment so that they can give personalized care to every patient.

When patients show up to an appointment without a consultation to ensure they are candidates and have to leave without performing a treatment OR when a patient chooses not to show up to their appointment, that takes time from our providers and other patients who would have been able to be scheduled in that spot.

We appreciate every one of our patients and thank you for your support and understanding of our small business!
